Summary

Agriculture graduate with professional training in Food Safety and Quality Management Systems. Completed theoretical and practical training in ISO standards (ISO 22000:2018, ISO 50001:2018, ISO 14001), HACCP, PRPs, GMP, and GHP, including system design, hazard analysis, problem-solving, and food safety procedures. Seeking an entry-level opportunity in Quality Assurance, Quality Control, or Food Safety within the food manufacturing industry.

Education

Degree: Bachelor's Degree in Agriculture (Bachelor of Agriculture)

University: Ain Shams University (ASU) – Egypt

Graduation Year: 2024

Work Experience

Job Title: Food Quality and Safety Trainee (Food Quality and Safety Training Program)

Organization: Quality and Food Safety Institute

Responsibilities & Achievements:

- Completed theoretical and practical training in food safety and quality management systems (ISO 22000:2018, ISO 50001:2018, ISO 14001, HACCP, PRPs, GMP, and GHP).
- Applied food safety concepts through practical projects involving system design, hazard analysis, problem-solving, and food safety procedures.

Job Title: Poultry Production Trainee

Company: Al-Sad Poultry Production Farms – Egypt

Responsibilities & Achievements:

- Completed practical training in poultry production operations.
- Gained practical exposure to poultry farm management, biosecurity, and production practices.

Job Title: Sales Representative – Chat Sales

Company: LANS Academy

Duration: 2022 – 2023

Responsibilities & Achievements:

- Promoted medical analysis courses and communicated with prospective students.
- Provided information about available courses and supported course marketing activities.

Company: Talabat

Duration: 2021 – 2022

- Developed communication, time management, and problem-solving skills in a fast-paced work environment.

Academic & Practical Projects

Project: Food Safety System Design – Training Project

- Participated in practical exercises involving food safety system design.
- Practiced identifying potential food safety hazards and determining appropriate control measures.
- Worked on simulated food safety scenarios and problem-solving procedures for food manufacturing operations.

Certifications

- ISO 22000:2018 – Food Safety Management Systems (FSMS)
- ISO 50001:2018 – Energy Management Systems (EnMS)
- ISO 14001 – Environmental Management Systems (EMS)
- HACCP (Hazard Analysis and Critical Control Points)
- PRPs (Prerequisite Programs)
- GMP (Good Manufacturing Practices)
- GHP (Good Hygiene Practices)
- Food Quality and Safety Training Program – Quality and Food Safety Institute
- ICDL – Microsoft Office Applications

Technical Skills

- HACCP Principles and Hazard Analysis
- Food Safety Risk Assessment
- Food Safety Management System Design (ISO 22000:2018)
- Prerequisite Programs (PRPs)
- Good Manufacturing Practices (GMP)
- Good Hygiene Practices (GHP)
- Environmental & Energy Management Systems (ISO 14001 & ISO 50001)
- Food Safety Problem-Solving
- Food Safety Procedures and Documentation
- Corrective Actions and Nonconformity Handling

Computer Skills

- ICDL – Microsoft Office Applications.
- Proficient in Microsoft Word, Excel, and PowerPoint.
