El Hassan Mohamed Abd Alla Abd ElGhani

Giza, Egypt +201143125143

hm6574062@gmail.com

Summary

Agriculture graduate specializing in Food Safety and Quality Assurance (QA/QC), equipped with practical expertise in ISO standards (22000:2018, 50001:2018, 14001), HACCP, GMP, and GHP guidelines. Proficient in prerequisite programs (PRPs), biological and chemical risk assessments, standard operating procedures (SOPs), and audit compliance. Seeking an entry-level Quality Assurance, Quality Control, or Food Safety role in food manufacturing.

Education

Degree: Bachelor's Degree in Agriculture (Bachelor of Agriculture)

University: Ain Shams University (ASU) – Egypt

Graduation Year: 2024

Work Experience

Job Title: Food Quality and Safety Trainee (Food Quality and Safety Training Program)

Organization: Quality and Food Safety Institute

Responsibilities & Achievements:

- Mastered compliance frameworks and auditing principles across ISO 22000:2018, ISO 50001:2018, ISO 14001, PRPs, and Good Manufacturing Practices (GMP/GHP).
- Evaluated manufacturing workflows through simulated plant scenarios, assessing critical contamination risks and establishing preventive controls to satisfy regulatory food hygiene standards.

Job Title: Poultry Production Trainee

Company: Al-Sad Poultry Production Farms – Egypt

Responsibilities & Achievements:

- Supported daily production workflows, flock monitoring, and housing management in an active commercial poultry facility.
- Implemented strict farm biosecurity protocols, sanitation routines, and disease prevention measures to ensure flock health and biosafety compliance.

Job Title: Sales Representative – Chat Sales

Company: LANS Academy

Duration: 2022 – 2023

Responsibilities & Achievements:

- Promoted medical analysis courses and communicated with prospective students.
- Provided information about available courses and supported course marketing activities.

Company: Talabat

Duration: 2021 – 2022

- Handled order tracking and live customer inquiries in a high-volume delivery environment, resolving order discrepancies and delivery exceptions under tight time constraints.

Academic & Practical Projects

Project: Food Safety System Design – Training Project

- Engineered a comprehensive Food Safety Plan model for food processing lines, developing operational

flowcharts, PRPs, and hazard evaluation matrices.

- Identified Critical Control Points (CCPs) across biological, chemical, and physical parameters, establishing strict critical limits and continuous monitoring mechanisms.
- Formulated root-cause investigation workflows and Corrective and Preventive Action (CAPA) protocols to resolve simulated manufacturing nonconformities.

Certifications

- ISO 22000:2018 – Food Safety Management Systems (FSMS)
- ISO 50001:2018 – Energy Management Systems (EnMS)
- ISO 14001 – Environmental Management Systems (EMS)
- HACCP (Hazard Analysis and Critical Control Points)
- PRPs (Prerequisite Programs)
- GMP (Good Manufacturing Practices)
- GHP (Good Hygiene Practices)
- Food Quality and Safety Training Program – Quality and Food Safety Institute
- ICDL – Microsoft Office Applications

Technical Skills

- HACCP Principles and Hazard Analysis
- Food Safety Risk Assessment
- Food Safety Management System Design (ISO 22000:2018)
- Prerequisite Programs (PRPs)
- Good Manufacturing Practices (GMP)
- Good Hygiene Practices (GHP)
- Environmental & Energy Management Systems (ISO 14001 & ISO 50001)
- Root Cause Analysis (RCA) & CAPA Procedures
- Food Safety Procedures and Documentation
- Corrective Actions and Nonconformity Handling

Computer Skills

- ICDL – Microsoft Office Applications.
- Proficient in Microsoft Word, Excel, and PowerPoint.
